## Profile

Web designer with a keen eye for detail and a knack for creativity. Working with a whole array of customers from different sectors of the industry, ranging from hospitality, education and manufacturing.

## Education

**BSc (Hons) Web Design and Development** **1st Class**  
Northumbria University in Newcastle September 2015 - July 2019

- ▶ Cloud and Web API Development
- ▶ Web Programming
- ▶ User Experience and Interface Design
- ▶ Professional Software Engineering Practice
- ▶ New Media Marketing
- ▶ Relational Databases
- ▶ Mobile App Design and Development

### Individual Project

To investigate and critically evaluate Progressive Web Applications (PWA) and to develop a prototype of a social media PWA.

## Work Experience

**Web Designer**  
Edward Robertson Digital Design, Newcastle upon Tyne June 2017 - Present

Responsive website design and development. Writing clean, W3C compliant HTML and CSS code. Writing PHP backend and querying MySQL databases. Using optimisation techniques to improve page loads. Responding to emails, phone calls, attending meetings, and helping others. Introduced new web technologies to the team.

- ▶ **Aurora-ecs**  
Working closely with a client to design a brochure site. Create graphics and CSS animations, integrate with CMS and add a background video.
- ▶ **Mslexia Publications Ltd.**  
Design user journey for adding products to the shopping cart. Integrate PayPal to process payments magazine subscriptions. Add a functionality to save orders, subscriptions and competition entries into in-house CMS. Build HTML email templates.

**Research Intern**  
Northumbria University, Newcastle upon Tyne June 2019 - July 2019

Collaborating with researchers, city council officers and local communities on a research project. Conducting literature research, semi-structured interviews and data analysis. Attending meetings, discussions and giving presentations.
