Profile

Web designer with a keen eye for detail and a knack for creativity. Working with a whole array of customers from different sectors of the industry, ranging from hospitality, education and manufacturing.

Education

BSc (Hons) Web Design and Development

1st Class

Northumbria University in Newcastle

September 2015 - July 2019

- ▶ Cloud and Web API Development
- ▶ Web Programming
- ▶ User Experience and Interface Design
- ▶ Professional Software Engineering Practice
- ▶ New Media Marketing
- ▶ Relational Databases
- ▶ Mobile App Design and Development

Individual Project

To investigate and critically evaluate Progressive Web Applications (PWA) and to develop a prototype of a social media PWA.

Work Experience

Web Designer

Edward Robertson Digital Design, Newcastle upon Tyne

June 2017 - Present

Web designer with three years of experience in responsive web design and development. Working with clients to deliver bespoke web solutions.

- ▶ **Aristocrat London**
Design an e-commerce site. Build a shopping cart, checkout system and integrate with CMS to manage products, orders and customers. Add CSS animations and responsive media queries.
- ▶ **Aurora-ecs**
Working closely with a client to design a brochure site. Create graphics and CSS animations, integrate with CMS and add a background video.
- ▶ **Mslexia Publications Ltd.**
Design user journey for adding products to the shopping cart. Integrate PayPal to process payments and add a functionality to save orders and competition entries into CMS.

Research Intern

Northumbria University, Newcastle upon Tyne

June 2019 - July 2019

Collaborating with researchers, city council officers and local communities on a research project. Conducting literature research, semi-structured interviews and data analysis. Attending meetings, discussions and giving presentations.
